From Texas Agricultural Experimental Station.

J. H. Connell, Director, College Station, Texas.

WICHITA EXPERIMENT FARMING.

Wichita Falls, Wichita Co., Tex., June 2.—[To The News.]—Last October J. H. Connell of College Station, Tex., located a state experiment station here on the farm of J. W. Phillips, a practical, experienced and successful farmer. Mr. Phillips has followed farming here for the past nine years He moved to this country from Carroll county, Tennessee in 1885. Prof. Connell and his representative, Mr. Phillips, have good reason to feel proud of their experimental farm in Wichita county and the farmers and business men here are much interested in and will be benefitted by the experiments being made by the state in the way of testing the many different kinds of seeds, etc.

The writer was shown over the farm yesterday by Mr. Phillips and for the first time learned that there is now growing and ready for the reaper 243 different kinds of wheat on the experimental farm. From this collection no doubt will be selected wheat that is much better adapted to this soil and climate than any wheat now grown in north Texas.

In looking over the different varieties one can see wheat that will yield double that of other wheat in the same field, which is evidence that there is something in the seed.

Of grasses and clover Mr, Phillips has twenty-two different kinds. Also ten of corn and ten of cotton, all of which are doing well at this writing. An early corn is what is needed in this section, corn that will make in ninety and one hundred days and Mr. Phillips is quite confident that he has it.

Cotton will be pretty well tested in this and adjoining counties this season, as there are several thousand acres planted.

On the state farm we were also shown several different kinds of barley, oats and rye.

Hemp and peanuts are being tested.

A visit to the home of Mr. Phillips will convince the visitor that this is not a one crop country. You can see growing side by side in the same inclosure and in a garden and orchard adjoining the expermient al farm wheat, oats, corn, rye, barley, cotton, tame grasses, clover, hemp, and peanuts besides nearly all kinds of vegetables and many varieties of fruits. Home-seekers and business men who visit this country should make it a point to visit the state experimental station. They will find it of interest and may profit by doing so. It is located in the Wichita valley a mile and a half from town. Wheat harvesting is now under a full head of steam, or rather horse, power. Thousands of acres are being cut every day. Conservate and experienced men place the average at from 15 to 18 bushels per acre from this country. Many large crops of from 300 to 500 acres will yield from 20 to 25 bushels per acre while others will not go over from 10 to 12 and 15 bushels. L. W. VAN DYKE.

The Situation at Cripple Creek.

Cripple Creek, Col., June 3.—All day long the striking miners have been on the alert expecting that any moment Sheriff Bowes' deputies would put in an appearance in some portion of the camp. Not a single miner is working in the camp. One shaft was put in on the Moose, Elkton, Prince Albert, Gold Dollar, Ingham, Jack and a few other properties, but the managers of the several mines were informed that it would be impossible to run any of the properties. The men are now confident they will be attacked sometime tomorrow, and that the hour may be directly after midnight.

All men not necessary to guard approaches to Bull Hill and forage for supplies have been massed about the fortification and their number is slightly over 1800. To-day the strikers made their last forage for arms, ammunition and supplies. Fearing a siege they have filled hundreds of beer kegs with water and stored them in the fort. The towns of Victor, Anaconda, Mound City, and other places are in the possession of squads of armed strikers.

The plan of the strikers is to meet the deputies and make as strong a stand as possible and if necessary retreat to Bull Hill, where a desperate stand will be made. The deputies will be commanded in the field by W. J. Palmer.

The miners to-day hailed with delight the words of Gov. Waite in response to Sheriff Bowes' demand for troops, and they now look for a battle, the end of which will be for them either victory or extermination.

Open threats against Colorado Springs are made as a result of the treatment of Gov. Waite and John Calderwood. It is expected deputy United States marshals will soon arrive in camp to serve summons on the officers of the union to appear in St. Louis in the court of appeals. They will offer no resistance as they fear federal authority.

THE PLAN OF BATTLE.

Cripple Creek Col., June 4.—The strikers have spent the day in perfecting their defense. Their forces were increased to-day by three hundred men who came from the direction of Pueblo. Women and children have been streaming toward this place from Victor and Altman. The miners have loaded beer kegs with dynamite, scrap iron and railroad spikes and have placed them on the crests of Globe hill and Battle mountain.

The defensive movements of the strikers have been decided upon and are about as follows: Mounted scouts, who are spread out in all directions, upon discovering the advance of the deputies will hasten to the camp with the information; prearranged signals will be sounded on the steam whistle at Pike's Peak mine, when the strikers will take their designated positions; all skirmishers will fall back slowly, keeping the deputies engaged until they reach the barricades erected at the foot of Bull Hill. Behind the barricades the strikers will make a stand and defend themselves. If driven from the barricades they will hasten up the slope to the fort. Should the deputies follow them the dynamite mines which have been planted at every few yards will be exploded. Cannons and bombs will simultaneously deal out death from the fort.

A REIGN OF TERROR.

Cripple Creek, Col., June 4.—A reign of terror exists in this city, with women and children being removed to places of safety. The general belief is that the deputies will advance against the strikers on Bull Hill to-day.

It is reported that Gen. Palmer, who built the Denver and Rio Grande railroad, and who has established a reputation as a fighter, will be in command of the deputies' army, with Charles Adams in direct charge of the calvary.

The fighting force on Bull Hill to day was increased by the arrival of 78 coal miners from Freemont county, and now number about 1300 men. It is reported that over 1000 deputies have taken a train at Divide for Midland, the terminus of the Midland terminal railway, and will proceed at once to Bull Hill.

The telegraph office at Divide refused to send out messages and the sentinels will not permit any travel between this city and Divide.

The deputy wounded in the skirmish to-day was taken to Midland. His name could not be learned.

ASHLAND DISTRICT.

Blistering Resolutions.

Versalles. Ky., June 1.—A large mass meeting was held here this afternoon to protest against the candidacy of Col. W. C. P. Breckinridge for congress, 200 ladies being present.

A. J. Alexander, the noted horse breeder, was chairman. Speeches condemning Breckinridge were made by prof. J. W. McGarvey, Judge J. G. Kinkead and Rev. J. R. Deering. The audience cheered almost continuously.

The following was adopted:

"Whereas, the represenative of this district in congress has covered himself with disgrace, and the people whose servant he is with mortification and shame by gross and frightful licentiousness, by lying and deceit, by the violation and disregard of every tie that human beings hold sacred and by such shamelessness and disregard of moral obligations as has made him the wonder and scorn of the whole world; and,

"Whereas. this matter, in all of its phases, posses distinctive and terrible features, which place it almost alone and unparalleled in the record of human depravity in our country, striking at the very foundation of social order and life, and mocking at the purity of our women and the sacredness of our homes, rendering the authur of these crimes a public enemy; therefore we pledge ourselves to use every honorable means to prevent the renomination of W. C. P. Breckinridge.

"We appeal to our democratic friends, by the honor of the district, and in the name of God, to rise in their might and prevent the fearful moral degradation which would be bound up in the election of this man."

Resolutions which followed demanded Mr. Breckinridge's withdrawal.

BRECKINRIDGE AT FRANKFORT.

Frankfort, Ky., June 4.—Congressman Breckinridge spoke here to day to an enthusiastic gathering of people. About 4000 were present.

He arrived at 10 a. m. from Lexington and was met at the depot by 500 people, who cheered him loudly as he got off the train. The speaking was billed to be at the courthouse, but it was found that the crowd could not get in the courthouse, and the speaking was adjourned to the open air.

He was introduced by Ex-Mayor Taylor, and was recieved with such applause that he could not commence his speech for fifteen minutes. He spoke about an hour and a half, and made one of the most eloquent efforts of his life. He did not roast his opponents as severely as on other occasions.

This county has all along been considered as Owens' strongest point, but the reception to. Breckinridge to-day was certainly beyond expectations. Many ladies attended the meeting.

Col. Breckinridge was dined to-day at the home of Col. E. H. Taylor, Jr.

OWENS AT PARIS.

Paris, Ky., June 4.—Hon. W. C. Owens, the opposing candidate for congress in the Ashland district, spoke here to-day to the largest audience that ever attended a political meeting in Paris. About 4000 people crowded around the courthouse. A special train from Owens' home brought 800 voters. Hundreds of of ladies were present and they cheered most vigorously when Mr. Owens made his telling thrust at Col. Breckinridge. His remarks were most scathing, as he charged the sitting member with disgracing and betraying every relation of life. He said that Breckinridge's story, as told by his own tongue, is a story of shame, of infamy and of degradation, that makes at once the blackest and most damning pages in the history of our government.

The audience cheered to the echo.

Keep off the Grass.

This is a grand government.

Advertise children for sale at $5.00 per head, as they do in New York, and the authorities will not molest you.

Fill the corridors of every legislative body with bribe-givers and those who make merchandise of the rights of the people, and the authorities will never trouble you.

Steal forty million dollars from the government railroad as Stanford, Crooker, Hopkins and Huntington each did, and the authorities will honor you and bow to you.

Steal $48,000 from a government bank in Washington City as Roach did; and the democratic party may send you to the senate as it sent him.

Steal from the government as Carnegie does and you may be respectfully invited to "assist at the investigation."

Sell your soul and your country to its deadliest enemies as John Sherman did; and the republicans may make you the chief apostle of its infamies.

Blast the fair fame of a state, outrage decency, make a mockery of morality as Breckinridge did; and the great democratic party will chant your praises and meet you on the hustings with huzzaing thousands.

Do each of these things—do all of them, and authorities slumber, or solemnly wink as you pass by and lift ruminative finger to the side of your nose.

But don't you dare to ruffle the tender blades of the glorious grass of the American Union with the irreverent sole of your unholy foot.

Outrage decency, violate the oath of office, steal public funds, break every pledge by which you got office—but keep off the grass!—Tom Watson's Paper.

"MAMMA, I'M GOING HOME."

Attacked by a Dog, a Little Girl Dies of Hydrophobia.

Waco, Tex., June 4.—On April 3 last an 8 year old daughter of Mr. Robert Peterson of Robinson, McLennan county, heard a noise among her chickens and ran to their relief. She found the chickens being worried by a little dog, which bit several of them and continued the attacks until the little girl seized him, and in a struggle got bit on the head by the dog, which was much excited and frothy at the mouth. After biting the child the dog ran around the village until some one shot and killed it. The wound in the little girl's scalp was treated by physicians and healed up. For a few weeks her parents and friends felt solicitous on her account, but gradually grew easy as time passed, and last Saturday, when the child came in from her play with flushed cheeks and complained of pains, the indisposition was not at first attributed to the bite of the dog. About sunset she said to her mother: "Mamma, I am going home before grandma."

The mother presed her for an explanation of the words, and the little sufferer added:

"I am going to die mamma."

In the night she grew worse, and before the sun rose she was far advanced with an attack of hydrophobia of pronounced type. Convulsions succeeded each other rapidly, and before noon death came to the relief of the child, whose suffering from the beginning to the close had been heart-rending.

So pretty and lovable was this little girl and so generally popular there is gloom through out the town of Robinson.

A Bloody Saturday.

Lake Charles, La., June 4.—Saturday, near Jones Bluff, on the upper Calcasieu river, a man named Herbert shot a man of the same name. Saturday night at West Lake a negro was shot by a negro porter on the Southern Pacific company's train. Saturday night at a negro ball here three negroes were shot by another negro. None of the negroes are dangerously wounded.

Birds That Can Sew.

Sewing seems to be so ingenious an art that it must be reserved for the human species alone. Yet the tailor bird, the orthotomus longicauda, and other species posses the elements of it. They place their nests in a large leaf which they prepare to this end. With their beaks they pierce two rows of holes along the two edges of the leaf; they then pass a stout thread from one side to the other alternately. With this leaf, at first flat, they form a horn in which they weave their nest with cotton or hair. These labors of weaving and sewing are preceded by the spinning of the thread. The bird makes it itself by twisting in its beak spiders' webs, bits of cotton and little ends of wool. Sykes found that the threads used for sewing were knotted at the ends.

A Populist Hereafter.

Goldsboro, N. C., May 29.—The Caucasion, of this city, in its issue of this week, will publish a card from Col Patrick H. Winston of Washidgton, formerly a resident of this state, in which he declares for the peoples party. He is well known to the people of North Carolina, and is an able man.

SURVIVOR OF FOUR WARS.

Andrew Franklin, a Kansas Pensioner, Living at the Age of 103 Years.

A pension was recently granted to Andrew Franklin of Burlington Kan., the sum being placed at $50 per month. Mr. Franklin, who was born in Pennsylvania in 1791, fought in the war of 1812, an Indian war and the war with Mexico, serving as a teamster in the federal army from 1861 to 1865. When the Mexican war broke out Franklin was getting along in years, but he joined the forces of Gen. Scott, under whom he had fought at Lunday's Lane in 1814. On retiring from the army at the close of the Mexican war, he located at Keokuk, Ia., and subsequently represented Van Buren county in Iowa legislature, but later moved to Kansas, where he was when the first shot was fired at Fort Sumpter. The old warrior at once sought service on the union side but failed on account of his age. After being refused enlistment at several stations he was finally employed as a teamster, in which capacity he served throughout the war. His first presidential vote was cast for James Madison, and ever since he has taken much interest in politics, having been an unwavering democrat from the first. He was married in 1829 to Miss Elizabeth Rader who died in 1871. They had ten children, only five of whom are now alive.—Chicago Inter-Ocean.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

Sold by all druggists.

THE EASY CHAIR.

That is the editor's "easy chair,"
At the rickety, three-legged table there.
He comes in smiling; he takes a seat.
And high on the table rests his feet;
And far from the bill collector's stare,
He leans 'way back in his "easy chair."

Then foward he bends, and his pen
goes fifeen miles o'er the paper - then.
When never a thought is left to pull.
The printer tells him "the paper's full."
Then the editor smiles, and released from care,
He, too, gets full in his "easy chair."

THE days of free grass have passed by,

A. W. TERRELL has stirred up the hornets nest with his anti silver letter.

As we go to press the Cripple Creek strike in Colorado is not settled.

THE strikes over the country does not signify a "speedy return of confidence."

THE bank robbers are still at large in the B. I. T. It is thought now that a posse will be sent out to hunt the officers in pursuit.

SEVERAL weeks ago Mr. Reagan said that Cleveland had betrayed his party by adopting the policy of the republican party on finance. Now Mr. Reagan says that Cleveland is honest. Can a man who betrays a trust be honest?

GOVERNOR TILLMAN, the democratic governor of South Carolina, writes a letter in which he favors mob law with criminals, white or black, who assaults women.

IN the democratic primaries in Lamar, Culberson carried a majority of the votes for governor. In McClennan county Lanham came out victorious.

WE acknowledge receipt of invitation, by the faculty of the University of Texas, to attend the exercises of the eleventh commencement, June 17 20, 1894, at the University Hall, Austin, Texas.

THE dispatches say that Oregan has gone republican in the state election just held. They also say that democrats voted with the republicans to defeat the populists.

THE lower house of congress voted on the bill to repeal the state bank tax, Wednesday. The bill was defeated by seventy majority. Thus another democratic pledge goes glimmering.

E. W. KIRKPATRICK

Suggested as a Candidate fo Congress on the Peoples Party Ticket in This District.

The time is near at hand when the peoples party will be called upon to select a candidate for congress for this congressional district. The peoples party demands a reformer after as well as before the election. They demand a man of superb moral courage. They demand a man acquainted with public affairs, with the wants of the people, with not only the requirements of the hour, but with the demands of the future. They demand a man who knows enough to know that the people of the United States demand an honest money. They demand a man whose political reputation is as spotless as a star. Our country asks for a man who has the audacity of genius; asks for a man who is the grandest combination of heart, conscience and brain.

This is a grand year, filled with the bitter memories of the past—a year in which the "Sons of Toil," will drink from the fountains of enthusiaism, a year in which the people call for a man who will do all in his power to sacredly preserve the honor of America and American citizens—one who knows enough to know that the national debt should be paid with honest money created by congress according to the constitution given us by the immortal defenders of liberty, one who knows enough to know that the government has the inherent right to make an honest paper dollar and that the people of the United States have the honor to defend it, a man who knows and has the honor to demand that this government shall protect its protectors. The man who has, in full, heaped and rounded measure, all these splendid qualifications. The man who will carry our banner so gallantly that others, seeing our good works, will be constrained to come over and join the only party to-day that promises liberty to the noble "Sons of Toil."

That man is the Hon. E. W. Kirkpatrick, of McKinney, Tex. The man who is now and has been for years the true advocate of the sacred standard of the peoples party. I call it sacred because no human being can stand beneath its folds without becoming and without remaining a true defender of the rights of the people. Will you support him? HOMO.

M. H. Garnett Endorsed.

McKinney, Tex., June 4, '93.

We, the undersigned members of the McKinney bar, knowing the superior fitness and qualification of our fellow townsman, the Hon. M. H. Garnett, for a position on the bench of the court of criminal appeals, heartily recommend him to the people of Texas, as a pains-taking and industrious lawyer, and an upright and honorable gentleman in all the walks of life, and would ask for him a favorable consideration by the democratic conventions throughout the state.

Editor Democrat.

Health of our community is not so good just now. Mr. and Mrs. George Tucker are very low with fever. Grandma Watson has fever. We are glad to note that Mr. Toomb's little boy, Nugent, is up again after a protracted illness.

Farmers are very busy fighting "Gen. Green." The majority have came out victorious.

The Sunday school at Pleasant Grove is simply on a boom, the membership increasing every Sunday. We earnestly pray that it may be the means of bringing many sonls to Christ, for "The harvest is white and the laborers are few."

Messrs. Benson and Proctor, of McKinney, visited our community last Sunday, on "special" business. Sparkling eyes and raven locks seems to be the center of attraction just now.

Rev. Hunter delivered an excellent sermon on baptism, last Sunday to an attentive audience.

Our Populist club is all O K., so to speak. The people seems to have awakened at last and it is better late than never.

What has become of F. E M.? We think she ought to come to the front and keep up her corner of the paper.

Lest the waste basket catches this in its monstrous grasp,
We'll hie away and
Come some other day.

A New Being

That Tired Feeling

Full Strength and Appetite Given by Hood's Sarsaparilla.

The following is from Mr. Thomas C. Barrett, of Mobile, Ala., a well known member of the city fire department, attached to Hook and Ladder Co., No. 4.:

"C. I. Hood & Co., Lowell, Mass.:

"I have been taking Hood's Sarsaparilla as a spring medicine and blood purifier. It is the best blood medicine I have ever used and for an appetizer it is excellent. I have taken several different kinds of medicine for the blood but Hood's Sarsaparilla has proved to be the best.

Hood's Sarsaparilla Cures

I was troubled with indigestion and that tired feeling. After taking four bottles of Hood's Sarsaparilla I feel like a new man. I cannot recommend Hood's Sarsaparilla too highly." THOMAS C. BARRETT, Mobile, Alabama.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

An Interesting Lecture.

McKinney, Tex., May 30, 1894.—At 8:30 last evening Dr. D. A. Boardsley, D. D. of Kentucky addressed a large and appreciative audience at the Methodist church, on the subject: "Woman's Sphere and Man's Opportunity." The lecture was an able one. A condensed report reads as follows:

It requires some courage for anybody to discuss such a theme as this before a mixed audience. It is a theme that has attracted the wise in all ages and menofall ages have endeavored to draw lines controlling the actions of women. And men have felt that they had a right to a broader field and greater liberties than women. This barrier is only broken down by the highest form of civilization. As we turn to the history of half civilized nations we find that the actions of women are circumscribed greatly.

Passing on from the Chinese, Hindoos, and Japanese, to the American Indian, we find that although more liberal than the eastern nations, although he willingly allows her to be a hewer of wood and a drawer of water, yet there are restrictions that civilized nations ought to discard.

But as we come to the white people of the nation, we find that the idea changes. The Gospel of Jesus Christ has liberated her, and she sits as a queen among her race. But not all men who have the appearance of being civilized, are civilized; and occasionally there is a ruffian who passes among civilized people. A man of this kind, feeling greatly his superiority over woman and his authority over his wife, came home one evening and said to his wife who was weary with toiling: "Well. is my supper ready?" "No, husband I have been very busy to-day, but I will have it ready in a few minutes." Where are my children?" "I have just sent them out to get supper ready for you." "Well, it strikes me that my household is going at loose ends." The woman was tired and worried at the start, and when that man looked out from under the bed a few minutes later, and said: "Wife, please hand me my hat, I think I'd like to take a walk," he thought there had been a cyclone in the house. It requires something of this sort occasionally to teach such a man where he belongs.

Among my earliest recollections is seeing a strange look-creature at our home. Her dress was very odd, her hair was combed in a peculiar manner, and there were little curls hanging down by the side of her face. She wore a high cone on her head, and I wondered if I would ever grow large enough to see over it. Her manner was an apology for being there, she shrank from the presence of every one, and when she sat down, she got on the edge of the chair. I said, "Mamma, what is it?" She said, "It is an old maid." "What is an old maid?" "Well it is a woman who has never had an opportunity to get married." But I am glad to say that this class is passing out of sight. As the years have rolled on, and the softening influences of civilization have spread over the land, I look about me and no longer find any old maids. Instead, I find a class of ladies who could have married if they would, but who had the moral courage and good sense to say no, when their hearts and their better judgment could not go with the yes. I have seen them among the most cultured, most refined and most useful in the day and age in which I have lived. I would ten thousand times rather be an old maid--yes, ten thous and old maids in one—than to be linked to some man who would tyranize over me and make me his slave. The old maid has passed out of existence and her corkscrew curls have gone down to the dust, and I doubt if they will ever be resurrected.

You often hear people compare men and women, and the greatest injustice imaginable is done to both sexes. It requires the two to make a perfect one, to make a congenial, united whole. God intended it that way. Tennyson has made a great mistake in his "Lockesly Hall." Pou remember he has his hero to say,

Woman is the lesser man. Her passions matched with mine
Are but as moonlight unto sunlight; or water unto wine.

Last summer I was stopping in Weatherford, and was a parlor boarder in the literal sense of the term—my bed was in the parlor. There was a young couple just outside, courting. I could not help but hear it; don't know that I tried not to. [Laughter.] He was contending the superiority of man over woman and quoted these lines. When he finished I heard the noise of gentle footsteps passing quickly away, and as I looked through the shutters I saw the man sitting there alone And I think that the next time he met her, there had been a revolution in his mind on the subject.

You say Shakespeare was the greatest poet that ever lived, You say that he is about the only poet that you care to read. You straighten yourself up and say this with a great deal of pride. Have you ever thought about the position that Shakespeare gives men in his plays? He has no heroes; he has only heroines. This is Shakespeare's opinion, not from a compilation of my own, but from a compilation of Ruskin. Sir Walter Scott's heroines outnumber his heroes as five to one; and when he wished to present the world with a character of more virtue than any other, he selected a woman from the middle classes. I now refer to Jeanie Deanes in the Heart of Midlothian. Chaucer wrote a Legend of Good Women, but not a legend of good men.

But still the cry is, "Let woman keep within her sphere. Notwithstanding all the testimony I have given you, there is a jealousy upon the part of men lest she should get out of her sphere. I wish to call your attention to one man's idea of woman's sphere. That is the old Texas ranchman who has one daughter, Sallie—calls her Sal because it is more convenient. One day a young man calls to see her, ostensibly to see the old gentleman. So he talks to the old man, and the old man talks about the girl, and says to him, "Sal is a great girl. She can pick four hundred pounds of cotton a day, she can rope and tie a steer in thirty-nine seconds and a half [Laughter.] and she can ride the worst bucking pony on the ranch and not get flung." The young man says, "Why, sir, I should think a man of your means would educate your daughter," He said, "No no, you go to educatin Sal, and she will git offen her speer."

The sphere of woman is to wipe away the tears from the eyes that give expression to the heart's pain, woman's sphere is to stand by the bedside of the dying and wipe the cold dew from the brow, and to bend her ear to catch the last sounds that fall from the lips; her sphere, with gentle hands to close the eyes that shall never look upon the face of nature again, to straighten the limbs that shall nevermore walk upon the face of the earth, her sphere to take her husband by the hand, and by her gentle strengh and wisdom lead him along the devious pathway of life.

Now to speak of man's opportunity: There are men here to-night who remember antebellum days when every man was the defender of every woman's name. Young man this is no myth. Every man, whether he knew the woman or not, was her champion. Your opportunity is, young man, to respond to the call of chivalry that comes from the voice of the past, and to stand in your places the defender of the good name of every pure woman, and the bringer to justice of every man who dares to speak disrespectfully of her.

A Visit to the Collin County Experimental Farm.

On June the 1, we visited the experitmental farm, near White's Grove, Collin county Tex.

Mr. J. H. Ferguson, manager under Prof. Connell of the State Agricultural College, was free in giving information on the progress made.

Several hundred standard varieties of wheat, corn, cotton and other products are being brought to maturity under careful tests, both with and without fertilizers.

This farm consists of rich, black soil, typical hog wallow land, near the head of the Dixon branch of Sloan creek, about 3 1-2 miles south-west from McKinney.

The experiments are conducted in a systematic way and much benefit will result to the public.

The varieties of wheat are ripening and promise to be superior to prevailing kinds. Manager Ferguson will be able to give some valuable results by June 10th.

Prof. Connell viewed the work last week and was well pleased,

After conducting these experiments several years and under varying conditions, many varities will be introduced to the public and incalculable benefit to our state.

By the aid of improved seeds, methods and machinery the profits of agriculture may be increased 50 to 100 per cent.

The establshment of this station in Collin county is a rare and highly appreciated compliment.

Manager Ferguson will take pleasure in giving valuable information to visitors.

Prof. J. H. Connell, of College Station, Tex., will be glad to send reports to all persons who will send request and address.

In annual production of agicultural wealth Collin county stands first in the empire state of Texas and we invite sister counties to a generous competition for this coveted position.

The "Katy" is for Texas Now and Always.

At a recent meeting of the Western Passenger association lines it was requested, by the M. K. & T., that the series of Home Seekers Excursions be continued during June. The request was met by violent opposition by other lines, but the "Katy" having the interest of Texas at heart persisted, and have publicly announced that on June 12th they will sell from all Northern gateways, such as St. Louis, Kansas City, Hannibal and Junction City, tickets to all points in Texas at one half the regular one way rate plus $1.00, allowing holders to stop over at pleasure in Texas, within five days.

In order that Texas may equally derive the benefit of a reduced rate, tickets will be sold on June the 22nd, from all Points in Texas to the above named gateways at one half the regular one fare rate plus $1.00. This independent action of the M. K. & T. will be a great benefit to Texas, and appreciated by their numerous patrons.

Altoga Shortstops.

Altoga, Tex., June 4, 1894.

Editor Democrat:

Not having seen anything from our industrious little city I thought I would drop you a few items.

People are generally well up with their crops which look fine.

Wheat cutting is in full blast to-day. Yield reported good.

Mrs Stiff and Mrs. Bevil are on the sick list this week.

Dr. Rucker and Wm. Mantooth are the proud fathers of a bouncing boy each.

Mantooth & Collins are busy placing in their large new engine and boiler so as to be ready for the large cotton crop this fall.

Miss Sally Stroup is teaching a music school at Mr. Camerons in West Altoga.

Nelson Strode has purchased a farm in West's addition.

We also understand that a bachelor in South addition has quite a ear for music.

Trustee's election was held here Saturday. The vote for new trustees stood thus: 000.

FROM CALLIS.

The Campaign in Collin County. W. E. Farmer Skins 'em.

Callis, Texas, June 5, 1894
Editor Democrat.

The people's party of this county have for some time wanted some people's party speaker to come to this county who could do a first class job in skinning the democratic orators. So we made several appointments for W. E. Farmer; beginning at Callis, on the night of the 30th ult. We had a fine turn out but none of the democratic orators showed themselves. Bro Farmer made us a speech of two hours and made many converts to our cause. Some whom we never expected to join us have come out openly and espoused the cause of the people's party, and like all new converts are very enthusiastic.

Bro. Farmer went from Callis to Cross Roads where he met an immense audience; but still the democratic orator was not on hand and I am informed that many converts were made, and declare that they are done with Grover Cleveland and bourbon democracy. The people at Cross Roads say that the speech made at that place was the finest they have ever heard from the standpoint of reform.

From Cross Roads Bro. Farmer went to Gray Bill, and there met Mr. Mangum, county attorney of Collin county. Mr. Farmer came out victorious. Much good was done for our cause and almost the entire audience was convinced that Mr. Mangum is entirely unable to cope with Farmer in debate; especially when he has has a bad cause to defend.

The next appointment was at Blue Ridge on the night of June 2. This is the place where Judge Abernathy met Brother Farmer some time ago and was totally annihilated, and it seemed that the whole audience was with our cause, doubtless the judge thinking that absence on his part was the better part of valor, Mr. Clay Mack was sent out to tackle the "pet lion" as some of the people called Bro. Farmer, and the sequel proved that Mr. Mack was to Farmer what the mouse is to the lion. Bro. Farmer made a very fine speech and when Mr. Mack rose to reply he looked like a man completely lost. He talked for some time without making a single point, when some one in the audience requested him to tell the audience something about the financial condition of the country, Mr. Mack said: "Ha, I don't know anything about finance, I haven't any, I didn't come here to talk finance, Mr Farmer can tell you all about the question." Mr. Mack said he was in favor of the government owning the railroad if it could get them, but, said he: "how can we get them?" Bro. Farmer made a rejoinder of twenty minutes. It was a perfect Waterloo for the old party, and the followers of the "stuffed prophet" of Wall Street went home with long faces and thoroughly convinced that they can't down Bill Farmer.

I never have known of so many converts being made to our cause as has been made by the speeches of Bro. Farmer.

June 4 - Farmer spoke at Delba, Fannin county, to a large audience, which listened to the truth of the planks on land, finance and transportation. No speaker met him. It was a victory for making populists. Success to The Democrat.

Laying of the Corner Stone of the New C. M. E. Church.

McKinney, Texaas, June 5, 1894,
Mr. Editor of The Democrat:

As we are preparing to lay a corner stone for the first brick edifice of the C. M. E. church in North Texas, we thought to give an outline of said church in the city of McKinney. First it was permanently organized by the Rev. Henry Jenning in 1879, under many embarrassing circumstances. Not a foot of land, or stick of timber or a dollar had they, but they trusted God for prosperity to their cause, who added to their number such men as Isam Malory, William Rice, Adams, Lylnian Johnson, Matilda McFatrich and others, all to about twenty who set about to purchase a lot on which to build. With the aid of some of the best white citizens, they succeeded in getting a lot and building a small house, which answered their purpose for three years. Great was the success of this church, under the administration of old father Jennings, who gained the confidence of all the good people of McKinney, white and black. He now rests as a super annuated preacher

Afterwards the church came under the administration of Williams, Simpkins, Penals, Jones and Walker, who did great good in building up the cause especially Jones, who did great good in doctrinating and disciplinating the church which grew rapidly under his administration until we had to build, and that in a back way. We had to purchase another lot from Mr. G. Dowlen, at the north end of town, in the W. M. Davis addition, at which place we expect to lay the corner stone at 3 o'clock Sunday afternoon, June 10. This building is estimated when finished at a cost of about $4000. We trust that this worthy enterprise is commendable to all good people, and as this will add much to the best colored people of this town and to the interests of all.

I, Samuel Townsel, Pastor of said church, humbly request the presence of all white friends who are favorable of such an enterprise and to contribute what you feel able to give, if not able to give let your presence cheer us and show that you are in favor of such an enterprise. We are preparing to have a large shed and well seated for the occasion. Seats will be provided for all. Come, hear, see, and learn, for the negro does move. Music will be furnished by the new choir. Rev. Mr, Morris of the M. E. Church South will preach at 3 o'clock. All need to hear him. The C. M. E. church means to do her part in evangelizing the world, though poor and needy she may be, God cares for her, May the blessings of God rest upon all.

Yours truly,
Samuel Townsel, P. C.

Fifty cents is a small doctor bill, but that is all it will cost you to cure any ordinary case of rheumatism if you use Chamberlain's Pain Balm. Try it and you will be surprised at the prompt relief it affords. The first applscrtion will quiet the pain· 50 cent bottles for sale by R. E. Bristol.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Des Moines, en route to Chicago, he was suddenly taken with an attack of diarrhœa. Having sold Chamberlain's Colic, Cholera and Diarrhœa remedy for the past seventeen years and knowing its riliability. he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhœa. Every one should procure a bottle of this remedy before leaving home. For sale by R. E. Bristol.

"For vividness of conception, fervidness of emotion, magnetism of manner and impressiveness of delivery, Gov. Hubbard might safely contend for the palm in American oratory. Such a possession is a rich one, and well calculated to aid materially in shaping the destiny of his state and country."—Galveston News.

"Governor Hubbard told many stories and annecdotes as he proceeded which kept his audience in a good humor and frequently they burst out into loud and prolonged laughter. The lecture was a grand success and those who were not present missed a grand intellectual treat as well as much instructive information."—Dallas News.

"Those who braved the storm on Monday evening to hear the lecture delivered by Ex-Governor R. B. Hubbard, at the Columbian opera house, upon Japan and the Orient, were richly rewarded for the slight discomfort they underwent, by hearing a discourse at once impressive and entertaining, thoughful and sparkling with wit."—Navasota Review.

W. I. Church, of Staunton Post, G A R, says: "I have tried nearly every cough remedy but have found nothing to compare with Park's Gough Syrup. There is nothing on earth like it for bronchitis, I have suffered ever since my discharge from the army and Park's Gough Syrup is the only remedy that has ever helped me." Sold by Smith Bros.

Are you insured? If, not, now is the time to preside yourself and family with a bottle of Chamberlain's Colic, Cholera, and Diarrhœa Remedy as an insurance against any serious results from an attack of bowel complaint during the summer months. It is almost certain to be needed and should be procured at once. No other remedy can take its place or do its work. 25 and 50 cent bottles for sale by R. E. Bristol.

Ingersoll on Silver.

I said I would say one or two words to night on such vulgar subjects as gold and silver. I am as satisfied as I am that I live, that few—the few who control the debts, the currency, the money of the world—have combined either consciously or unconsciously, to make the debtor pay more than the creditor has a right to ask.

The tendency has always been in this world to put the burdens upon those least able to bear them. In barbarian countries the women have to do the work simply because they are weaker—that is all. And the others, being the stronger, do not expend their strength in working but expend their strength in making the weaker do their work.

This is precisely the same in our civilized society to-day. Between the rich and the poor, if the burden is to be borne in this country, it is to be borne by the poor—always.

They are the first to suffer. Let the blast of war blow in this country, who goes to the war? Who goes to the front? The millionaires? Not one. Who goes? The presidents of corporations? The bankers? The men presiding over the great vaults of gold? Not much! The poor goes because nine times out of ten, the poorer he is the more patriotic. The poor bear the burdens of this country and of the world.

Only a few years ago our money was gold and silver—money that had been the money of man for thousands of years. Our silver was demonetized and gold made the standard.

There is no man in the United States with ingenuity enough to account for the demonetization of silver in 1873. There is not one. We need altogether more money than we have. How much have we got? Four or five hundred millions in silver; four or five or six in gold—ten hundred million, may be, altogether.

Last year the farmers of America raised of corn, wheat and oats, over $1,600,000,000 worth, and got the money. Sixteen hundred millions just in corn, wheat and oats—over $800,000,000 in corn; over $500,000,000 in wheat. Just think of it! Sixteen hundred million dollars not counting beef or pork or petroleum or cotton or any kind of manufactured articles of the country.

Sixty-five millions of people the most active, the most progressive people of the world—on the face of the globe!

We need twice as much money per capita to do the business of this country as is needed to do the business of any other country. There is always somebody that is crazy for fear there will be more currency. I want just all the money we can get. Silver is good enough for me All I want of money is to pay my debts. Yes, sir, and I want the law to compel the other fellow to take what I take. That is good enough for me.

I believe that every ounce of silver that is dug under the American flag should be coined free under the American flag. In my country they are mostly on the other side. They are with the bankers, with the rich fellows. They get together and they say they want gold. A man makes a contract to pay certain moneys in five years, I want a law that he can pay the money when the contract comes due with the money that was money when the contract was made.

I do not think the few should have the right to combine to increase the value of what people call money against the debtor and in favor of the creditor. I want the free coinage of all silver that you win from the silver mines of Amertca, and if foreign countries do not want our money we will not trade with them.

A POPULAR ELOCUTIONIST.

Mrs. J. W. Reynolds, of Elkton, Ohio, Restored to Health.

Mrs. Reynolds, the well known elocutionist and authoress, says she has suffered with congestion of the lungs, catarrh of the head, and was troubled with a bad cough. She had tried a number of physicians, but they all failed to cure her. She was induced to try Pe-ru-na, and immediately a marked change took place. After using Pe-ru-na her cough ceased, and in a short time her other ailments were cured. She is now completely restored to health, and gives all the credit to Pe-ru-na.

Speaking of lung diseases, Dr. Hartman says in a recent lecture: "For the multitudes of people that I treat annually for every imaginable form of throat and lung disease, Pe-ru-na is my invariable prescription. People come hundreds of miles, at great expense, consult me for acute and chronic coughs, to return home with some advice and a bottle of Pe-ru-na, which they can continue to get at the nearest drug store; and the fame I enjoy in the treatment of such troubles comes from the use of this wonderful compound."

Kidnaping Miners.

Cripple Creek, Col., June 2,—H. E. Woods, president of Woods' Investment company, was taken in charge by a body of miners and carried up to the fort on Bull Hill. His wife was present when he was taken and is almost frantic. The men told her that she need not worry, as they would turn Mr. Woods loose in the morning. Business men here look into each others' faces and see nothing but dread and fear. The cause of the kidnaping is not known.

At the Thurber Mines.

Fort Worth, Tex., June 3.—Parties in from Thurber this afternoon reported that about 700 miners who have been working in different shafts of the Thurber mines went out on a strike at 7 o'clock yesterday morning on account of a reduction in miners' salaries of 15 per cent, but a telegram recieved from there to night says that the strike has not yet occurred, but that it is momentarily expected.

H. K. Thurber, president of the mines, is in Fort Worth but resides about four miles from the city and could not be seen to-night by the News representative.

The above report comes from an authentic source. It is said that threats have been made and the company is preparing for an emergency.

"Your chum Jones must have married in haste," remarked young Fitz Allen to his friend DeTone.

"No, indeed; he married in Philadelphia," answered De Tone.—Ex.

Stub Ends of Thought.

We must go away from our selves to find the ideal.

Advice should be well taken before shaken.

The perfectly independent man may be an admirable character, but he doesn't know what it is to have the absolute devotion of friends.

Love doesn't wait for an invitation.

Man makes the conscience oftener than conscience makes the man.

We are shaped by our yesterdays.

Aphorisms.

Beware of little expenses; a small leak will sink a great ship.—Franklin.

We do not count a man's years until he has nothing else to count.—Emerson.

There is a long and wearisome step between admiration and imitation.—Richter.

Be gentle! The sea is held in check, not by a wall of brick but a beach of Sand.—Ivan Panin.

One may live as a conqueror, a king, or a magistrate; but he must die as a man.—Daniel Webster.

It is by attempting to reach the top at a single leap that so much misery is produced in this world.—Cobbett.

Man is an animal that cannot live long in safety without occupation; the growth of his fallow nature is apt to run to weeds.—Hillard.

The preacher who leaves it to his hearers to apply what he says to them, transfers to them the most essential part of his own business.—Gilbert.

They Want Names.

The Russell Art Publishing Co., of 928 Arch Street Philadelphia, desire the names and address of a few people in every town who are interested in works of art, and to secure them they offer to send FREE, "Cupid Guides the Boat," a superbly executed water color picture, size 10 x 13 inches, suitable for framing, and sixteen other pictures about the same size, IN COLORS, to any one sending them AT ONCE the names and address of ten persons (admirers of fine pictures) together with six two cent stamps to cover expense of mailing etc. The regular price of these pictures is $1.00, but they can all be secured free by any person forwarding the names and stamps PROMPTLY.

NOTE—The editor of this paper has already received copies of above pictures and considers them really "Gems of Art.

Smole a Smile.

Mr. Peffer offered an amendment to put iron ore on the free list and there was much curiosity to see how a vote on it would result. There were only four votes for it. These four were Peffer, Allen and Kyle, populists, and Senator Hill. The latter smiled when he voted this way and smiled broadly when Mr. Mills voted against it.—McKinney Enquirer.

When the foreman pies type it is an accident. When the new devil pies type it is d—d carelessness.—Typo.

Two Masters.

"Can a man serve two masters?" inquired the pastor of a mild-eyed deacon.

"He has to sometimes," confessed the deacon.

"I think not."

"You never had boy twins at your house, did you?" inquired the deacon softly, and the psator retired in discomfiture.—Ex.

Wool and Iron.

Senator Mills votes for free wool, but votes against free iron ore. Hill voted for free iron ore, with a broad smile on his face. The democratic party has been Tylerized just as the democratic principles of tariff reform is now being McKinleyized.—McKinney Enquirer.

Notice to Teachers.
